Central Valley Project, California

CONTRACT BETWEEN THE UNITED STATES AND  
ANDERSON-COTTONWOOD IRRIGATION DISTRICT,  
DIVERTER OF WATER FROM SACRAMENTO RIVER SOURCES,  
SETTLING WATER RIGHTS DISPUTES AND  
PROVIDING FOR PROJECT WATER

THIS CONTRACT, hereinafter referred to as "Settlement Contract," is

entered into by THE UNITED STATES OF AMERICA, hereinafter referred to as the  
United States, made this \_\_\_\_ day of \_\_\_\_\_, 2004, pursuant to the  
applicable authority granted to it generally in the Act of June 17, 1902 (32 Stat. 388), and  
acts amendatory or supplementary thereto, including, but not limited to, the Acts of  
August 26, 1937 (50 Stat. 844), as amended and supplemented, August 4, 1939 (53 Stat.  
1187), as amended and supplemented, including, but not limited to, Sections 9 and 14  
thereto, July 2, 1956 (70 Stat. 483), June 21, 1963 (77 Stat. 68), October 12, 1982 (96  
Stat. 1262), October 27, 1986 (100 Stat. 3050), as amended, and Title XXXIV of the Act  
of October 30, 1992 (106 Stat. 4706), all collectively hereinafter referred to as Federal  
Reclamation law, and ANDERSON-COTTONWOOD IRRIGATION DISTRICT,  
hereinafter referred to as the Contractor, a public agency of the State of California, duly  
organized, existing, and acting pursuant to the laws thereof, with its principal place of  
business in California;

WITNESSETH, that:

EXPLANATORY RECITALS

[1<sup>st</sup>] WHEREAS, the United States has constructed and is operating the Central Valley Project, California, for multiple purposes pursuant to its statutory authority; and

[2<sup>nd</sup>] WHEREAS, the Contractor has rights to divert, is diverting, and will continue to divert for reasonable beneficial use, water from the natural flow of the Sacramento River and tributaries thereto, that would have been flowing therein if the Central Valley Project were not in existence;

[3<sup>rd</sup>] WHEREAS, the construction and operation of the integrated and coordinated Central Valley Project has changed and will further change the regimen of the Sacramento, American, San Joaquin, and Trinity Rivers and the Sacramento-San Joaquin Delta from unregulated flow to regulated flow; and

[4<sup>th</sup>] WHEREAS, the United States has rights to divert, is diverting, and will continue to divert waters from said Rivers and said Delta in connection with the operation of said Central Valley Project, and

[5<sup>th</sup>] WHEREAS, the Contractor and the United States had a dispute over the respective rights of the parties to divert and use water from the regulated flow of the Sacramento River which threatened to result in litigation, and as a means to settle that dispute entered into Contract No. 14-06-200-3346A, hereinafter referred to as the Existing Contract, which established terms for the delivery to the Contractor of Central Valley Project Water, and the quantities of Base Supply the United States and the Contractor agreed may be diverted by the Contractor from the Sacramento River pursuant to such contract; and

[6<sup>th</sup>] WHEREAS, the United States and the Contractor disagree with respect to the authority of the United States to change the quantities of Base Supply and/or Project Water specified as available for diversion in this Settlement Contract from the quantities specified in the Existing Contract, and other issues related thereto. That dispute was the subject of litigation in a lawsuit entitled *Glenn-Colusa Irrigation District, et al. v. United States, et al.* [Civ. No. S-01-1816 GEB/JFM (E.D. Cal.)], but that litigation was dismissed, without prejudice, pursuant to a stipulation of dismissal filed by the parties thereto on August 29, 2002. Notwithstanding that dismissal, the Contractor and the United States enter into this Settlement Contract to renew the Existing Contract, pursuant to the terms of the Existing Contract, Federal Reclamation law, and the laws of the State of California; and

[7<sup>th</sup>] WHEREAS, to assure the Contractor of the enjoyment and use of the regulated flow of the said Rivers and the Delta, and to provide for the economical operation of the Central Valley Project by, and the reimbursement to, the United States for expenditures made for said Project.

NOW, THEREFORE, in consideration of the performance of the herein contained provisions, conditions, and covenants, it is agreed as follows:

#### DEFINITIONS

1. When used herein, unless otherwise expressed or incompatible with the intent hereof, the term:

(a) “Base Supply” shall mean the quantity of Surface Water established in Articles 3 and 5 which may be diverted by the Contractor from the

1 Sacramento River each month during the period April through October of each Year  
2 without payment to the United States for such quantities diverted;

3 (b) "Basin-Wide Water Management Plan" shall mean the mutually  
4 agreeable Sacramento River Basinwide Water Management Plan, dated \_\_\_\_\_,  
5 developed by Glenn-Colusa Irrigation District, Maxwell Irrigation District, Natomas  
6 Central Mutual Water Company, Pelger Mutual Water Company, Princeton-Codora-  
7 Glenn Irrigation District, Provident Irrigation District, Reclamation District 108, Sutter  
8 Mutual Water Company, Anderson-Cottonwood Irrigation District, M&T, Inc., Meridian  
9 Farms Water Company, Reclamation District 1004 and the U.S. Bureau of Reclamation.

10 (c) "Charges" shall mean the payments for Project Water that the  
11 Contractor is required to pay to the United States in addition to the "Rates" specified in  
12 this Settlement Contract. The Contracting Officer will, on an annual basis, determine the  
13 extent of these Charges. The type and amount of each Charge shall be specified in  
14 Exhibit D;

15 (d) "Contract Total" shall mean the sum of the Base Supply and  
16 Project Water available for diversion by the Contractor for the period April 1 through  
17 October 31;

18 (e) "Critical Year" shall mean any Year in which either of the  
19 following eventualities exists:

20 (1) The forecasted full natural inflow to Shasta Lake for the  
21 current Water Year, as such forecast is made by the United States on or before February  
22 15 and reviewed as frequently thereafter as conditions and information warrant, is equal  
23 to or less than 3.2 million acre-feet; or

1                               (2)     The total accumulated actual deficiencies below 4 million  
2     acre-feet in the immediately prior Water Year or series of successive prior Water Years  
3     each of which had inflows of less than 4 million acre-feet, together with the forecasted  
4     deficiency for the current Water Year, exceed 800,000 acre-feet.

5                               For the purpose of determining a Critical Year, the computation of inflow  
6     to Shasta Lake shall be performed in a manner that considers the extent of upstream  
7     development above Shasta Lake during the year in question, and shall be used as the full  
8     natural flow to Shasta Lake. In the event that major construction has occurred or occurs  
9     above Shasta Lake after September 1, 1963 and which has materially altered or alters the  
10    regimen of the stream systems contributing to Shasta Lake, the computed inflow to  
11    Shasta Lake used to define a Critical Year will be adjusted to eliminate the effect of such  
12    material alterations. After consultation with the State of California, the National Weather  
13    Service, and other recognized forecasting agencies, the Contracting Officer will select the  
14    forecast to be used and will make the details of it available to the Contractor. The same  
15    forecasts used by the United States for the operation of the Project shall be used to make  
16    the forecasts hereunder;

17                           (f)     “CVPIA” shall mean the Central Valley Project Improvement Act,  
18    Title XXXIV of the Act of October 30, 1992 (106 Stat. 4706);

19                           (g)     “Eligible Lands” shall mean all lands to which Project Water may  
20    be delivered in accordance with Section 204 of the Reclamation Reform Act of October  
21    12, 1982 (96 Stat. 1263), as amended, hereinafter referred to as RRA;

1                   (h)     “Excess Lands” shall mean all lands in excess of the limitations  
2     contained in Section 204 of the RRA, other than those lands exempt from acreage  
3     limitation under Federal Reclamation law;

4                   (i)     “Full Cost Rate” shall mean that water rate described in Sections  
5     205(a)(3) or 202(3) of the RRA, whichever is applicable;

6                   (j)     “Ineligible Lands” shall mean all lands to which Project Water  
7     may not be delivered in accordance with Section 204 of the RRA;

8                   (k)     “Landholder” shall mean a party that directly or indirectly owns or  
9     leases nonexempt land, as provided in 43 CFR 426.2;

10                  (l)     “Project” shall mean the Central Valley Project owned by the  
11     United States and managed by the Department of the Interior, Bureau of Reclamation;

12                  (m)     “Project Water” shall mean all Surface Water diverted or  
13     scheduled to be diverted each month during the period April through October of each  
14     Year by the Contractor from the Sacramento River which is in excess of the Base Supply.  
15     The United States recognizes the right of the Contractor to make arrangements for  
16     acquisition of water from projects of others than the United States for delivery through  
17     the Sacramento River and tributaries subject to written agreement between Contractor  
18     and the United States as to identification of such water which water when so identified  
19     shall not be deemed Project Water under this Settlement Contract;

20                  (n)     “Rates” shall mean the payments for Project Water determined  
21     annually by the Contracting Officer in accordance with the then current applicable water  
22     ratesetting policies for the Project, as described in subdivision (a) of Article 8 of this  
23     Settlement Contract;

(o) "Secretary" or "Contracting Officer" shall mean the Secretary of the Interior, a duly appointed successor, or an authorized representative acting pursuant to any authority of the Secretary and through any agency of the Department of the Interior;

(p) "Surface Water" shall mean only those waters that are considered as surface water under California law;

(q) "Water Year" shall mean the period commencing with October 1 of one year and extending through September 30 of the next; and

(r) "Year" shall mean a calendar year.

#### TERM OF SETTLEMENT CONTRACT

2. (a) This Settlement Contract shall become effective April 1, 2004, and shall remain in effect until and including March 31, 2044: Provided, that under terms and conditions mutually agreeable to the parties hereto, renewals may be made for successive periods not to exceed 40 years each. The terms and conditions of each renewal shall be agreed upon not later than one year prior to the expiration of the then existing Settlement Contract.

(b) With respect to Project Water and the portions of this Settlement Contract pertaining thereto, upon written request by the Contractor of the Secretary made not later than one year prior to the expiration of this Settlement Contract, whenever, account being taken of the amount then credited to the costs of construction of water supply works, the remaining amount of construction costs of water supply work which is properly assignable for ultimate return by the Contractor as established by the Secretary of the Interior pursuant to (3) of Section 1 of Public Law 643 (70 Stat. 483), probably can be repaid to the United States within the term of a contract under subsection 9(d) of the

1 1939 Reclamation Project Act (53 Stat. 1187), the relevant portions of this Settlement  
 2 Contract may be converted to a contract under said subsection 9(d) upon terms and  
 3 conditions mutually agreeable to the United States and the Contractor. The Secretary  
 4 shall make a determination 10 years after the date of execution of this Settlement  
 5 Contract, and every five years thereafter, of whether a conversion to a contract under said  
 6 subsection 9(d) can be accomplished pursuant to Public Law 643. Notwithstanding any  
 7 provision of this Settlement Contract, the Contractor reserves and shall have all rights and  
 8 benefits under Public Law 643.

### 9 WATER TO BE FURNISHED TO CONTRACTOR

10 3. (a) Subject to the conditions, limitations, and provisions hereinafter  
 11 expressed, the Contractor is hereby entitled and authorized to divert from the Sacramento  
 12 River at the locations shown in Exhibit A, for beneficial use within the area delineated on  
 13 Exhibit B, (both Exhibits are attached hereto and made a part hereof), the Contract Total  
 14 designated in Exhibit A, or any revision thereof, in accordance with the monthly  
 15 operating schedule required by Article 3(c) of this Settlement Contract. The quantity of  
 16 any water diverted under this Settlement Contract from the Sacramento River, during the  
 17 period April through October, for use on any lands delineated on Exhibit B, by the owner  
 18 of such lands or otherwise shall constitute a part of the Contract Total as shown on  
 19 Exhibit A and shall be subject to all the provisions of this Settlement Contract relating to  
 20 such Contract Total as if such diversion were made by the Contractor: Provided, that  
 21 water diverted and used for municipal, industrial, and domestic purposes within the  
 22 Contractor's service area shall not be subject to the provisions of this contract and shall

not constitute a part of the ~~total supply~~ Contract Total when such diversions are made by the following:

(1) The City of Redding, a municipality, or by others for use in the area lying west of the Sacramento River and north of Clear Creek; or

(2) Any industrial firm which erects its principal buildings on land riparian to the Sacramento River not then being served by the Contractor, or, if then being served by the Contractor, to the extent the water diverted for industrial purposes is greater than the water so served to such land by the Contractor it shall not constitute a part of the ~~total supply~~ Contract Total.

(b) The Contractor may have acquired rights to divert water from the Sacramento River during the period April through October, that were obtained after the date of execution of the Existing Contract, or the Contractor may acquire such rights in the future. All diversions made from the Sacramento River, pursuant to such rights, during the period April through October, shall not be considered a part of the quantity of Base Supply and Project Water specified in Exhibit A; Provided, that the quantities diverted pursuant to the above rights shall be identified on the schedule submitted pursuant to Article 3(c) below, and shall not be substituted for any Base Supply or Project Water; Provided, further, that any such identified quantities of other acquired rights may be diverted by the Contractor before incurring any fee pursuant to Article 3(c)(1), below.

(c) Before April 1 and before the first day of each month thereafter when a revision is needed, the Contractor shall submit a written schedule to the

Contracting Officer indicating the Contract Total to be diverted by the Contractor during each month under this Settlement Contract. The United States shall furnish water to the Contractor in accordance with the monthly operating schedule or any revisions thereof. However, the United States recognizes the need of the Contractor to change from time to time its monthly diversions of water from the quantities shown in Exhibit A; the Contractor may make such changes, provided:

(1) that for the quantity of Base Supply diverted in excess of the monthly quantity shown in Exhibit A, and as may be reduced in accordance with Article 5(a), during June, July, August, September, or October of any Water Year, the Contractor shall be charged a rescheduling fee equal to 50% of the sum of the storage operations and maintenance rate and the storage capital rate components of the Project ratesetting policy.

(2) that in no event shall the total quantity scheduled for diversion by the Contractor from the Sacramento River:

(i) During the period April through October exceed the aggregate of the Contract Total for that period shown in Exhibit A or any revision thereof;

(ii) During the period July through August exceed the aggregate of the Contract Total for that period shown in Exhibit A or any revision thereof.

(d) In the event conditions warrant, the Contracting Officer reserves the right to require the Contractor to submit, at least 72 hours prior to the beginning of each weekly period, its estimate of daily diversion requirements for each such period

from the Sacramento River: Provided, however, that changes during any such period may be made upon the giving of 72 hours' notice thereof to the Contracting Officer.

Provided, further, that the Contractor shall notify the United States as far in advance as is reasonably possible each time it intends to install or remove boards from its diversion dam. The United States shall notify the Contractor as far in advance as is reasonably possible each time it intends to change the release of water from Keswick Reservoir into the Sacramento River. In addition, during the irrigation season, the Contractor may from time to time notify the United States of the maximum flow the Contractor believes its diversion dam with the then setting of boards can safely accommodate without damage thereto or to the walkway, and the Contracting Officer shall notify the Contractor as far in advance as possible but not less than ~~twenty-four~~ 24 hours of any change in releases to be made at Keswick Reservoir that would exceed such maximum flow designated by the Contractor. The United States shall assist the Contractor in connection with the installation or removal of boards from the diversion dam by the Contractor as follows:

- (1) Adjust Keswick releases to the extent reasonably needed to facilitate installation or removal of boards, the adjustments to be made at times that will accomplish that purpose but not unduly interfere with other obligations of the United States; and
- (2) Furnish manpower to assist the Contractor in placing or removing boards when an emergency condition exists as a result of the operations of the United States.

(e) No sale, transfer, exchange, or other disposal of any of the Contract Total designated in Exhibit A or the right to the use thereof for use on land other

than that shown on Exhibit B shall be made by the Contractor without first obtaining the written consent of the Contracting Officer. Such consent will not be unreasonably withheld and a decision will be rendered in a timely manner. For short-term actions that will occur within one year or less, the decision will be rendered within 30 days after receipt of a complete written proposal. For long-term actions that will occur in a period longer than one year, the decision will be rendered within 90 days after receipt of a complete written proposal. For a proposal to be deemed complete by the Contracting Officer, it must comply with all provisions required by State and Federal law, including information sufficient to enable the Contracting Officer to comply with the National Environmental Policy Act, the Endangered Species Act, and applicable rules or regulations then in effect; Provided that, such consent does not authorize the use of Federal facilities to facilitate or effectuate the sale, transfer, exchange or other disposal of Base Supply. Such use of Federal facilities will be the subject of a separate agreement to be entered into between the Contractor and Reclamation.

(f) For the purpose of determining whether section 3405(a)(1)(M) of the CVPIA applies to the Contractor as a transferor or transferee of Project Water, the Contracting Officer acknowledges that the Contractor is within a county, watershed or other area of origin, as those terms are utilized under California law.

(g) Nothing herein contained shall prevent the Contractor from diverting water during the months of November through March for beneficial use on the land shown on Exhibit B or elsewhere to the extent authorized under the laws of the State of California.

(h) The United States assumes no responsibility for and neither it nor its officers, agents, or employees shall have any liability for or on account of:

(1) The quality of water to be diverted by the Contractor;

(2) The control, carriage, handling, use, disposal, or distribution of water diverted by the Contractor outside the facilities constructed and then being operated and maintained by or on behalf of the United States;

(3) Claims of damage of any nature whatsoever, including but not limited to, property loss or damage, personal injury, or death arising out of or connected with the control, carriage, handling, use, disposal, or distribution of said water outside of the hereinabove referred to facilities; and

(4) Any damage whether direct or indirect arising out of or in any manner caused by a shortage of water whether such shortage be on account of errors in operation, drought, or unavoidable causes.

#### RETURN FLOW

4. Nothing herein shall be construed as an abandonment or a relinquishment by the United States of any right it may have to the use of waste, seepage, and return flow water derived from water diverted by the Contractor hereunder and which escapes or is discharged beyond the boundaries of the lands shown on Exhibit B; Provided, that this shall not be construed as claiming for the United States any right to such water which is recovered by the Contractor pursuant to California law from within the boundaries of the lands shown on Exhibit B, and which is being used pursuant to this Settlement Contract for surface irrigation or underground storage for the benefit of the lands shown on Exhibit B by the Contractor.

1                    CONSTRAINTS ON THE AVAILABILITY OF WATER

2            5.        (a)        In a Critical Year, the Contractor's Base Supply and Project Water  
3            agreed to be diverted during the period April through October of the Year in which the  
4            principal portion of the Critical Year occurs and, each monthly quantity of said period  
5            shall be reduced by twenty-five percent.

6                    (b)        The amount of any overpayment by the Contractor shall, at its  
7            option, be refunded or credited upon amounts to become due to the United States from  
8            the Contractor under the provisions hereof in the ensuing Year. To the extent of such  
9            deficiency such adjustment of overpayment shall constitute the sole remedy of the  
10          Contractor.

11                   INTEGRATED WATER MANAGEMENT AND PARTNERSHIPS

12          6.        The Contractor and United States desire to work together to maximize the  
13          reasonable beneficial use of water for their mutual benefit. As a consequence, the United  
14          States and the Contractor will work in partnership and with others within the Sacramento  
15          Valley, including other Contractors, to facilitate the better integration within the  
16          Sacramento Valley of all water supplies including, but not limited to, the better  
17          management and integration of surface water and groundwater, the development and  
18          better utilization of surface water storage, the effective utilization of waste, seepage and  
19          return flow water, and other operational and management options that may be identified  
20          in the future.

21                   USE OF WATER FURNISHED TO CONTRACTOR

22          7.        (a)        Project Water furnished to the Contractor pursuant to this  
23          Settlement Contract shall not be delivered or furnished by the Contractor for any

1 purposes other than agricultural purposes without the written consent of the Contracting  
2 Officer. For purposes of this Settlement Contract, “agricultural purposes” includes, but is  
3 not restricted to, the watering of livestock, incidental domestic use including related  
4 landscape irrigation, or underground water replenishment.

5 (b) The Contractor shall comply with requirements applicable to the  
6 Contractor in biological opinion(s) prepared as a result of a consultation regarding the  
7 execution of this Settlement Contract undertaken pursuant to Section 7 of the Endangered  
8 Species Act of 1973, as amended, that are within the Contractor’s legal authority to  
9 implement. The Contractor shall comply with the limitations or requirements imposed by  
10 environmental documentation applicable to the Contractor and within its legal authority  
11 to implement. The Existing Contract, which evidences in excess of 40 years of  
12 diversions, for agricultural uses, of the quantities of water provided for in Article 3, and  
13 the underlying water rights of the Contractor will be considered in developing an  
14 appropriate base-line for the Biological Assessment prepared pursuant to the Endangered  
15 Species Act, and in any other needed environmental review. Nothing herein shall be  
16 construed to prevent the Contractor from challenging or seeking judicial relief in a court  
17 of competent jurisdiction with respect to any biological opinion or other environmental  
18 documentation referred to in this Article.

19 RATE AND METHOD OF PAYMENT FOR WATER

20 8. (a) The Contractor shall make payments to the United States as  
21 provided in this Article for all Project Water shown in Exhibit A as follows:

22 (1) seventy-five percent of the amount shown as Project Water  
23 shall be paid for by the Contractor in each Year; and in addition

(2) the Contractor shall pay for Project Water actually diverted in excess of seventy-five percent of the amount shown as Project Water.

Such payments shall be at Rates and Charges established in accordance with:

(i) the Secretary's then-current ratesetting policies for the Project; and (ii) applicable Reclamation law and associated rules and regulations, or policies: Provided, that if the Contractor desires to use Project Water for other than agricultural use the Rates and Charges set forth above will be adjusted by the Contracting Officer to the applicable Rates and Charges for such use. The Rates and Charges applicable to the Contractor upon execution of this Settlement Contract are set forth in Exhibit D, as may be revised annually. The Secretary's ratesetting policies for the Project shall be amended, modified, or superseded only through a public notice and comment procedure. The Contracting Officer shall adjust the amount of Project Water for which payment is required to the extent of any reduction in diversions of Project Water made in accordance with the water conservation provisions of Article 29(e).

(b) The Contracting Officer shall notify the Contractor of the Rates and Charges as follows:

(1) Prior to July 1 of each Year, the Contracting Officer shall provide the Contractor an estimate of the Charges for Project Water that will be applied to the period October 1, of the current Year, through September 30, of the following Year, and the basis for such estimate. The Contractor shall be allowed not less than two months to review and comment on such estimates. On or before September 15 of each Year, the Contracting Officer shall notify the Contractor in writing of the Charges to be

1 in effect during the period October 1 of the current Year, through September 30, of the  
2 following Year, and such notification shall revise Exhibit D.

3 (2) Prior to October 1 of each Year, the Contracting Officer  
4 shall make available to the Contractor an estimate of the Rates for Project Water for the  
5 following Year and the computations and cost allocations upon which those Rates are  
6 based. The Contractor shall be allowed not less than two months to review and comment  
7 on such computations and cost allocations. By December 31 of each Year, the  
8 Contracting Officer shall provide the Contractor with the final Rates to be in effect for  
9 the upcoming Year, and such notification shall revise Exhibit D.

10 (c) The Contractor shall pay the United States for Project Water in the  
11 following manner:

12 (1) With respect to Rates, prior to May 1 of each Year, the  
13 Contractor shall pay the United States one-half the total amount payable pursuant to  
14 subdivision (a) of this Article and the remainder shall be paid prior to July 1 or such later  
15 date or dates as may be specified by the United States in a written notice to the  
16 Contractor: Provided, however, that if at any time during the Year the amount of Project  
17 Water diverted by the Contractor shall equal the amount for which payment has been  
18 made, the Contractor shall pay for the remaining amount of such water as shown in  
19 Exhibit A in advance of any further diversion of Project Water.

20 (2) With respect to Charges, the Contractor shall also make a  
21 payment to the United States, in addition to the Rate(s) in subdivision (c)(1) of this  
22 Article, at the Charges then in effect, before the end of the month following the month of  
23 delivery or transfer. The payments shall be consistent with the quantities of Project

1 Water delivered or transferred. Adjustment for overpayment or underpayment of  
2 Charges shall be made through the adjustment of payments due to the United States for  
3 Charges for the next month. Any amount to be paid for past due payment of Charges  
4 shall be computed pursuant to Article 13 of this Settlement Contract.

5 (d) Payments to be made by the Contractor to the United States under  
6 this Settlement Contract may be paid from any revenues available to the Contractor.

7 (1) All revenues received by the United States from the  
8 Contractor relating to the delivery of Project Water or the delivery of non-Project water  
9 through Project facilities shall be allocated and applied in accordance with Federal  
10 Reclamation law and the associated rules or regulations, and the then current Project  
11 ratesetting policies for Irrigation Water.

12 (e) The Contracting Officer shall keep its accounts pertaining to the  
13 administration of the financial terms and conditions of its long-term water service and  
14 Settlement Contracts, in accordance with applicable Federal standards, so as to reflect the  
15 application of Project costs and revenues. The Contracting Officer shall, each Year upon  
16 request of the Contractor, provide to the Contractor a detailed accounting of all Project  
17 and Contractor expense allocations, the disposition of all Project and Contractor  
18 revenues, and a summary of all water delivery information. The Contracting Officer and  
19 the Contractor shall enter into good faith negotiations to resolve any discrepancies or  
20 disputes relating to accountings, reports, or information.

21 (f) The parties acknowledge and agree that the efficient administration  
22 of this Settlement Contract is their mutual goal. Recognizing that experience has  
23 demonstrated that mechanisms, policies, and procedures used for establishing Rates and

1 Charges and/or for making and allocating payments, other than those set forth in this  
2 Article may be in the mutual best interest of the parties, it is expressly agreed that the  
3 parties may enter into agreements to modify the mechanisms, policies, and procedures for  
4 any of those purposes while this Settlement Contract is in effect without amendment of  
5 this Settlement Contract.

6 (g) For the term of this Settlement Contract, Rates under the respective  
7 ratesetting policies for the Project will be established to recover only reimbursable  
8 operation and maintenance (including any deficits) and capital costs of the Project, as  
9 those terms are used in the then current Project ratesetting policies, and interest, where  
10 appropriate, except in instances where a minimum Rate is applicable in accordance with  
11 the relevant Project ratesetting policy. Proposed changes of significance in practices  
12 which implement the ratesetting policies for the Project will not be implemented until the  
13 Contracting Officer has provided the Contractor an opportunity to discuss the nature,  
14 need, and impact of the proposed change. The Contractor retains all rights to challenge  
15 the validity of Rates and Charges imposed pursuant to this Settlement Contract, including  
16 but not limited to operation and maintenance expenses and operation and maintenance  
17 deficits, in an appropriate administrative or judicial proceeding.

18 (h) Except as provided in subsection 3405(a)(1)(B) of the CVPIA, the  
19 Rates for Project Water transferred, exchanged, or otherwise disposed of, by the  
20 Contractor shall be the Contractor's Rates adjusted upward or downward to reflect the  
21 changed costs of delivery (if any) of the transferred, exchanged, or otherwise disposed of  
22 Project Water to the transferee's point of delivery in accordance with the then-current  
23 ratesetting policies for the Project. Except as provided in subsection 3407(d)(2)(A) of the

CVPIA, the Charges for Project Water transferred, exchanged, or otherwise disposed of, by the Contractor shall be the Contractor's Charges specified in Exhibit D. If the Contractor is receiving lower Rates and Charges because of inability to pay and is transferring, exchanging, or otherwise disposing of Project Water to another entity whose Rates and Charges are not adjusted due to inability to pay, the Rates and Charges for transferred, exchanged, or otherwise disposed of Project Water shall be the Contractor's Rates and Charges unadjusted for ability to pay.

(i) Pursuant to the Act of October 27, 1986 (100 Stat. 3050), the Contracting Officer is authorized to adjust determinations of ability to pay every five years.

(j) Each payment to be made pursuant to subdivisions (a) and (b) of this Article shall be made at the office of the Bureau of Reclamation, Mid-Pacific Region, File No. 11546, P.O. Box 6000, San Francisco, California, 94160-1546, or at such other place as the United States may designate in a written notice to the said Contractor.

Payments shall be made by cash transaction, wire, or any other mechanism as may be agreed to in writing by the Contractor and the Contracting Officer. In the event there should be a default in the payment of the amount due, the delinquent payment provisions of Article 13 shall apply. The Contractor shall not be relieved of the whole or any part of its said obligation by, on account of, or notwithstanding, as the case may be:

(1) Its failure, refusal, or neglect to divert seventy-five percent of the quantity of Project Water shown on Exhibit A;

(2) The default in payment to it by any water user of assessments, tolls, or other charges levied by or owing to said Contractor;

(3) Any judicial determination that any assessment, toll, or other charge referred to in subsection 8(c)(2) of this Settlement Contract is irregular, void, or ineffectual; or

(4) Any injunctive process enjoining or restraining the Contractor from making or collecting any such assessment, toll, or other charge referred to in subsection 8(c)(2) of this Settlement Contract.

AGREEMENT ON WATER QUANTITIES

9. (a) During the term of this Settlement Contract and any renewals thereof:

(1) It shall constitute full agreement as between the United States and the Contractor as to the quantities of water and the allocation thereof between Base Supply and Project Water which may be diverted by the Contractor from the Sacramento River for beneficial use on the land shown on Exhibit B which said diversion, use, and allocation shall not be disturbed so long as the Contractor shall fulfill all of its obligations hereunder;

(2) Neither party shall claim any right against the other in conflict with the provisions of Article 9(a)(1) hereof.

(b) Nothing herein contained is intended to or does limit rights of the Contractor against others than the United States or of the United States against any person other than the Contractor: Provided, however, that in the event the Contractor, the United States, or any other person shall become a party to a general adjudication of rights to the use of water of the Sacramento River system, this Settlement Contract shall not jeopardize the rights or position of either party hereto or of any other person and the

1 rights of all such persons in respect to the use of such water shall be determined in such  
2 proceedings the same as if this Settlement Contract had not been entered into, and if final  
3 judgment in any such general adjudication shall determine that the rights of the parties  
4 hereto are different from the rights as assumed herein, the parties shall negotiate an  
5 amendment to give effect to such judgment. In the event the parties are unable to agree  
6 on an appropriate amendment they shall, within 60 days of determining that there is an  
7 impasse, employ the services of a neutral mediator, experienced in resolving water rights  
8 disputes, to assist in resolving the impasse. The cost of the mediation will be shared  
9 equally. A failure to reach agreement on an amendment within 60 days of the end of  
10 mediation will cause the immediate termination of this Settlement Contract.

11 (c) In the event that the California State Water Resources Control  
12 Board or a court of competent jurisdiction issues a final decision or order modifying the  
13 terms and conditions of the water rights of either party to this Settlement Contract in  
14 order to impose Bay-Delta water quality obligations, the Contractor and the United States  
15 shall promptly meet to determine whether or not to modify any of the terms of this  
16 Settlement Contract to comply with the final decision or order, including, but not limited  
17 to, the applicability of the rescheduling charge in Article 3(c)(1) of this Settlement  
18 Contract. If within 60 days of the date of the issuance of the final decision or order the  
19 parties are not able to reach agreement regarding either the need to modify this  
20 Settlement Contract or the manner in which this Settlement Contract is to be modified,  
21 the parties shall promptly retain a neutral mediator, experienced in resolving water right  
22 disputes, to assist the parties in resolving their dispute. The cost of the mediator shall be  
23 shared equally. In the event that either of the parties to this Settlement Contract

1 determines that the parties will not be able to develop mutually-agreeable modification(s)  
2 to this Settlement Contract even with the assistance of a mediator, either of the parties to  
3 this Settlement Contract may attempt to resolve the impasse by seeking appropriate  
4 judicial relief including, but not limited to, filing a general adjudication of the rights to  
5 the use of water in the Sacramento River system. The foregoing provisions of this sub-  
6 article shall only apply to the incremental obligations contained within a final decision or  
7 order of the State Water Resources Control Board that reflects a modification to the  
8 obligations imposed in State Water Resources Control Board Revised Water Rights  
9 Decision 1641 dated March 15, 2000, and its associated 1995 Water Quality Control Plan  
10 which, taken together, will be considered the baseline for the application of the  
11 provisions of this sub-article.

12 (d) In the event this Settlement Contract terminates, the rights  
13 of the parties to thereafter divert and use water shall exist as if this Settlement Contract  
14 had not been entered into; and the fact that as a compromise settlement of a controversy  
15 as to the respective rights of the parties to divert and use water and the yield of such  
16 rights during the term hereof, this Settlement Contract places a limit on the Contract  
17 Total to be diverted annually by the Contractor during the Settlement Contract term and  
18 segregates it into Base Supply and Project Water shall not jeopardize the rights or  
19 position of either party with respect to its water rights or the yield thereof at all times  
20 after the Settlement Contract terminates. It is further agreed that the Contractor at all  
21 times will first use water to the use of which it is entitled by virtue of its own water  
22 rights, and neither the provisions of this Settlement Contract, action taken thereunder, nor  
23 payments made thereunder to the United States by the Contractor shall be construed as an

1 admission that any part of the water used by the Contractor during the term of this  
2 Settlement Contract was in fact water to which it would not have been entitled under  
3 water rights owned by it nor shall receipt of payments thereunder by the United States  
4 from the Contractor be construed as an admission that any part of the water used by the  
5 Contractor during the term of this Settlement Contract was in fact water to which it  
6 would have been entitled under water rights owned by it.

7 MEASUREMENT OF WATER

8 10. (a) All water diverted by the Contractor from the Sacramento River  
9 will be diverted at the existing point or points of diversion shown on Exhibit A or at such  
10 other points as may be mutually agreed upon in writing by the Contracting Officer and  
11 the Contractor.

12 (b) All water diverted from the Sacramento River pursuant to this  
13 Settlement Contract will be measured or caused to be measured by the United States at  
14 each point of diversion with existing equipment or equipment to be installed, operated,  
15 and maintained by the United States, and/or others, under contract with and at the option  
16 of the United States. The equipment and methods used to make such measurement shall  
17 be in accordance with sound engineering practices. Upon request of the Contractor, the  
18 accuracy of such measurements will be investigated by the Contracting Officer and any  
19 errors appearing therein will be corrected.

20 (c) The right of ingress to and egress from all points of diversion is  
21 hereby granted to all authorized employees of the United States. The Contractor also  
22 hereby grants to the United States the right to install, operate, maintain and replace such

1 equipment on diversion or carriage facilities at each point of diversion as the Contracting  
2 Officer deems necessary.

3 (d) The Contractor shall not modify, alter, remove, or replace  
4 diversion facilities or do any other act which would alter the effectiveness or accuracy of  
5 the measuring equipment installed by the United States or its representatives unless and  
6 until the Contracting Officer has been notified with due diligence and has been given an  
7 opportunity to modify such measuring equipment in such manner as may be necessary or  
8 appropriate. In the event of an emergency the Contractor shall notify the United States  
9 within a reasonable time thereafter as to the existence of the emergency and the nature  
10 and extent of such modification, alteration, removal, or replacement of diversion  
11 facilities.

12 (e) The Contractor shall pay the United States for the costs to repair,  
13 relocate, or replace measurement equipment when the Contractor modifies, alters,  
14 removes, or replaces diversion or carriage facilities.

15 (f) Contractor and Contracting Officer shall develop a mutually  
16 agreeable surface water delivery water measurement program which shall be  
17 implemented by the Contractor, and such measurement program shall be consistent with  
18 the conservation and efficiency criteria for evaluating water conservation plans as  
19 provided in Article 29(a).

20 (g) All new surface water delivery systems installed within the lands  
21 delineated on Exhibit B after the effective date of this Settlement Contract shall also  
22 comply with the measurement provisions described in this Article.

1 Section 6 of the Reclamation Project Act of 1939 (Public Law 76-260). The interest  
2 charge rate shall be determined as of the due date and remain fixed for the duration of the  
3 delinquent period.

4  
5 (c) When a partial payment on a delinquent account is received, the  
6 amount received shall be applied, first to the penalty, second to the administrative  
7 charges, third to the accrued interest, and finally to the overdue payment.

8  
9 QUALITY OF WATER

10 14. The operation and maintenance of Project facilities shall be performed in  
11 such manner as is practicable to maintain the quality of raw water made available through  
12 such facilities at the highest level reasonably attainable as determined by the Contracting  
13 Officer. The United States does not warrant the quality of water and is under no  
14 obligation to construct or furnish water treatment facilities to maintain or better the  
15 quality of water.

16 WATER AND AIR POLLUTION CONTROL

17 15. The Contractor, in carrying out this Settlement Contract, shall comply  
18 with all applicable water and air pollution laws and regulations of the United States and  
19 the State of California, and shall obtain all required permits or licenses from the  
20 appropriate Federal, State, or local authorities.

21 EQUAL OPPORTUNITY

22 16. During the performance of this Settlement Contract, the Contractor agrees  
23 as follows:

24  
25 (a) The Contractor will not discriminate against any employee or  
26 applicant for employment because of race, color, religion, sex, or national origin. The  
27 Contractor will take affirmative action to ensure that applicants are employed, and that  
28 employees are treated during employment, without regard to their race, color, religion,  
29 sex, or national origin. Such action shall include, but not be limited to, the following:  
30 Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising;  
31 layoff or termination, rates of payment or other forms of compensation; and selection for  
32 training, including apprenticeship. The Contractor agrees to post in conspicuous places,

1 available to employees and applicants for employment, notices to be provided by the  
2 Contracting Officer setting forth the provisions of this nondiscrimination clause.

3  
4 (b) The Contractor will, in all solicitations or advertisements for  
5 employees placed by or on behalf of the Contractor, state that all qualified applicants will  
6 receive consideration for employment without discrimination because of race, color,  
7 religion, sex, or national origin.

8  
9 (c) The Contractor will send to each labor union or representative of  
10 workers with which it has a collective bargaining agreement or other contract or  
11 understanding, a notice, to be provided by the Contracting Officer, advising the said labor  
12 union or workers' representative of the Contractor's commitments under Section 202 of  
13 Executive Order No. 11246 of September 24, 1965, as amended, and shall post copies of  
14 the notice in conspicuous places available to employees and applicants for employment.

15  
16 (d) The Contractor will comply with all provisions of Executive Order  
17 No. 11246 of September 24, 1965, as amended, and of the rules, regulations, and relevant  
18 orders of the Secretary of Labor.

19  
20 (e) The Contractor will furnish all information and reports required by  
21 said amended Executive Order and by the rules, regulations, and orders of the Secretary  
22 of Labor, or pursuant thereto, and will permit access to its books, records, and accounts  
23 by the Contracting Officer and the Secretary of Labor for purposes of investigation to  
24 ascertain compliance with such rules, regulations, and orders.

25  
26 (f) In the event of the Contractor's noncompliance with the  
27 nondiscrimination clauses of this Settlement Contract or with any of the said rules,  
28 regulations, or orders, this Settlement Contract may be canceled, terminated, or  
29 suspended, in whole or in part, and the Contractor may be declared ineligible for further  
30 Government contracts in accordance with procedures authorized in said amended  
31 Executive Order, and such other sanctions may be imposed and remedies invoked as  
32 provided in said Executive Order, or by rule, regulation, or order of the Secretary of  
33 Labor, or as otherwise provided by law.

34  
35 (g) The Contractor will include the provisions of paragraphs (a)  
36 through (g) in every subcontract or purchase order unless exempted by the rules,  
37 regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of said  
38 amended Executive Order, so that such provisions will be binding upon each  
39 subcontractor or vendor. The Contractor will take such action with respect to any  
40 subcontract or purchase order as may be directed by the Secretary of Labor as a means of  
41 enforcing such provisions, including sanctions for noncompliance: Provided, however,  
42 that in the event the Contractor becomes involved in, or is threatened with, litigation with  
43 a subcontractor or vendor as a result of such direction, the Contractor may request the  
44 United States to enter into such litigation to protect the interests of the United States.

1                    COMPLIANCE WITH CIVIL RIGHTS LAWS AND REGULATIONS

2  
3            17.     (a)     The Contractor shall comply with Title VI of the Civil Rights Act  
4 of 1964 (42 U.S.C. 2000d), Section 504 of the Rehabilitation Act of 1975 (P.L. 93-112,  
5 as amended), the Age Discrimination Act of 1975 (42 U.S.C. 6101, et seq.) and any other  
6 applicable civil rights laws, as well as with their respective implementing regulations and  
7 guidelines imposed by the U.S. Department of the Interior and/or Bureau of Reclamation.

8  
9            (b)     These statutes require that no person in the United States shall, on  
10 the grounds of race, color, national origin, handicap, or age, be excluded from  
11 participation in, be denied the benefits of, or be otherwise subjected to discrimination  
12 under any program or activity receiving financial assistance from the Bureau of  
13 Reclamation. By executing this Settlement Contract, the Contractor agrees to  
14 immediately take any measures necessary to implement this obligation, including  
15 permitting officials of the United States to inspect premises, programs, and documents.

16  
17            (c)     The Contractor makes this agreement in consideration of and for  
18 the purpose of obtaining any and all Federal grants, loans, contracts, property discounts,  
19 or other Federal financial assistance extended after the date hereof to the Contractor by  
20 the Bureau of Reclamation, including installment payments after such date on account of  
21 arrangements for Federal financial assistance which were approved before such date.  
22 The Contractor recognizes and agrees that such Federal assistance will be extended in  
23 reliance on the representations and agreements made in this Article, and that the United  
24 States reserves the right to seek judicial enforcement thereof.

25  
26                    MINGLING OF CONTRACTOR'S PROJECT AND NON-PROJECT WATER

27            18.     (a)     Project Water must of necessity be transported by the Contractor to  
28 its water users by means of the same works and channels used for the transport of its non-  
29 Project Water including Base Supply. Notwithstanding such mingling of water, the  
30 provisions of Article 11 hereof shall be applicable only to Project Water, and such  
31 mingling of water shall not in any manner subject to the provisions of Article 11 hereof  
32 the Contractor's non-Project water including Base Supply.

33            (b)     If required in accordance with subdivision (c) of this Article, the  
34 Contractor shall install and maintain such measuring equipment and distribution facilities  
35 and maintain such records as may be necessary to determine the amounts of water  
36 delivered to Excess Lands served by the Contractor. The Contractor shall not within any

1 month deliver to Ineligible Lands water in excess of the non-Project Water, including  
2 Base Supply, for that month. The Contracting Officer or authorized representative shall  
3 have the right at all reasonable times to inspect such records and measuring equipment.

4 (c) The Contractor will not be considered in violation of the  
5 requirement that Project Water be delivered only to Eligible Lands during any month of  
6 the irrigation season that the water requirement for beneficial use on Eligible Lands for  
7 that month is equal to or in excess of the Project Water for that month as shown on  
8 Exhibit A or any revision thereof pursuant to subdivision (c) of Article 3. The water  
9 requirement for beneficial use on Eligible Lands will be determined by multiplying:

10 (1) the number of irrigable acres of the particular types of  
11 crops grown in that year on the acreage designated as eligible by

12 (2) the Unit Duties as set forth in Exhibit C attached hereto and  
13 made a part hereof, or by such other Unit Duties mutually agreed upon by the Contractor  
14 and the Contracting Officer. In order to make the computation of the water requirement  
15 for Eligible Lands, on April 1 of each Year and concurrently with its order for water for  
16 the irrigation season, the Contractor shall designate the acreage of and type of crops to be  
17 grown on its Eligible Lands that irrigation season. During any month the water  
18 requirement as above determined for crops growing on Eligible Lands during such month  
19 is equal to or in excess of the Project Water for that month as provided herein the  
20 Contractor shall not be required to measure the water delivered to Excess Lands. Any  
21 month the said water requirement is less than the amount of Project Water as provided  
22 herein, the Contractor will be required to measure water delivered to excess land in  
23 accordance with subdivision (b) hereof.

1 No such consolidation shall be valid unless and until approved by the Contracting  
2 Officer.

3 NOTICES

4 22. Any notice, demand, or request authorized or required by this Settlement  
5 Contract shall be deemed to have been given, on behalf of the Contractor, when mailed,  
6 postage prepaid, or delivered to the Area Manager, Northern California Area Office,  
7 Bureau of Reclamation, 16349 Shasta Dam Blvd., Shasta Lake, California, 96019, and on  
8 behalf of the United States, when mailed, postage prepaid, or delivered to the Board of  
9 Directors of the Anderson-Cottonwood Irrigation District, 2810 Silver Street, Anderson,  
10 California 96007. The designation of the addressee or the address may be changed by  
11 notice given in the same manner as provided in this Article for other notices.  
12

13 ASSIGNMENT LIMITED--SUCCESSORS AND ASSIGNS OBLIGATED

14  
15 23. (a) The provisions of this Settlement Contract shall apply to and bind  
16 the successors and assigns of the parties hereto, but no assignment or transfer of this  
17 Settlement Contract or any right or interest therein shall be valid until approved in writing  
18 by the Contracting Officer.  
19

20 (b) The assignment of any right or interest in this Settlement Contract  
21 by either party shall not interfere with the rights or obligations of the other party to this  
22 Settlement Contract absent the written concurrence of said other party.  
23

24 (c) The Contracting Officer shall not unreasonably condition or  
25 withhold his approval of any proposed assignment.  
26

27 OFFICIALS NOT TO BENEFIT

28  
29 24. (a) No Member of or Delegate to Congress, Resident Commissioner,  
30 or official of the Contractor shall benefit from this Settlement Contract other than as a  
31 water user or landowner in the same manner as other water users or landowners.  
32

33 (b) No officer or member of the governing board of the Contractor  
34 shall receive any benefit that may arise by reason of this Settlement Contract other than  
35 as a landowner within the Contractor's service area and in the same manner as other  
36 landowners within the said service area.  
37

38 CONTINGENT UPON APPROPRIATION OR ALLOTMENT OF FUNDS

39  
40 25. The expenditure or advance of any money or the performance of any  
41 obligation of the United States under this Settlement Contract shall be contingent upon  
42 appropriation or allotment of funds. Absence of appropriation or allotment of funds shall

not relieve the Contractor from any obligations under this Settlement Contract. No liability shall accrue to the United States in case funds are not appropriated or allotted.

#### CONFIRMATION OF SETTLEMENT CONTRACT

26. The Contractor, after the execution of this Settlement Contract, shall promptly seek to secure a decree of a court of competent jurisdiction of the State of California, if appropriate, confirming the execution of this Settlement Contract. The Contractor shall furnish the United States a certified copy of the final decree, the validation proceedings, and all pertinent supporting records of the court approving and confirming this Settlement Contract, and decreeing and adjudging it to be lawful, valid, and binding on the Contractor. This Settlement Contract shall not be binding on the United States until such final decree has been secured.

#### UNAVOIDABLE GROUNDWATER PERCOLATION

27. To the extent applicable, the Contractor shall not be deemed to have delivered Project Water to Excess Lands or Ineligible Lands if such lands are irrigated with groundwater that reaches the underground strata as an unavoidable result of the delivery of Project Water by the Contractor to Eligible Lands.

#### PRIVACY ACT COMPLIANCE

28. (a) The Contractor shall comply with the Privacy Act of 1974 (5 U.S.C. 552a) (the Act) and the Department of the Interior rules and regulations under the Act (43 CFR 2.45 et seq.) in maintaining Landholder acreage certification and reporting records, required to be submitted to the Contractor for compliance with Sections 206 and 228 of the Reclamation Reform Act of 1982 (96 Stat. 1266), and pursuant to 43 CFR 426.18.

(b) With respect to the application and administration of the criminal penalty provisions of the Act (5 U.S.C. 552a(i)), the Contractor and the Contractor's employees responsible for maintaining the certification and reporting records referenced in (a) above are considered to be employees of the Department of the Interior. See 5 U.S.C. 552a(m).

(c) The Contracting Officer or a designated representative shall provide the Contractor with current copies of the Interior Department Privacy Act regulations and the Bureau of Reclamation Federal Register Privacy Act System of Records Notice (Acreage Limitation--Interior, Reclamation-31) which govern the maintenance, safeguarding, and disclosure of information contained in the Landholder's certification and reporting records.

(d) The Contracting Officer shall designate a full-time employee of the Bureau of Reclamation to be the System Manager who shall be responsible for making decisions on denials pursuant to 43 CFR 2.61 and 2.64 amendment requests pursuant to 43 CFR 2.72. The Contractor is authorized to grant requests by individuals for access to their own records.

(e) The Contractor shall forward promptly to the System Manager each proposed denial of access under 43 CFR 2.64; and each request for amendment of records filed under 43 CFR 2.71; notify the requester accordingly of such referral; and provide the System Manager with information and records necessary to prepare an appropriate response to the requester. These requirements do not apply to individuals seeking access to their own certification and reporting forms filed with the Contractor pursuant to 43 CFR 426.18, unless the requester elects to cite the Privacy Act as a basis for the request.

#### WATER CONSERVATION

29. (a) Prior to the diversion of Project Water, the Contractor shall be implementing an effective water conservation and efficiency program based on the Basin-Wide Water Management Plan and/or Contractor's water conservation plan that has been determined by the Contracting Officer to meet the conservation and efficiency criteria for evaluating water conservation plans established under Federal law. The water conservation and efficiency program shall contain definite water conservation objectives, appropriate economically feasible water conservation measures, and time schedules for meeting those objectives. Continued diversion of Project Water pursuant to this Settlement Contract shall be contingent upon the Contractor's continued implementation of such water conservation program. In the event the Contractor's water conservation plan or any revised water conservation plan completed pursuant to subdivision (c) of Article 29 of this Settlement Contract have not yet been determined by the Contracting Officer to meet such criteria, due to circumstances which the Contracting Officer determines are beyond the control of the Contractor, Project Water deliveries shall be made under this Settlement Contract so long as the Contractor diligently works with the

1 Contracting Officer to obtain such determination at the earliest practicable date, and  
2 thereafter the Contractor immediately begins implementing its water conservation and  
3 efficiency program in accordance with the time schedules therein.

4 (b) The Contractor shall submit to the Contracting Officer a report on  
5 the status of its implementation of the water conservation plan on the reporting dates  
6 specified in the then existing conservation and efficiency criteria established under  
7 Federal law.

8 (c) At five year intervals, the Contractor shall revise its water  
9 conservation plan to reflect the then current conservation and efficiency criteria for  
10 evaluating water conservation plans established under Federal law and submit such  
11 revised water management plan to the Contracting Officer for review and evaluation.  
12 The Contracting Officer will then determine if the water conservation plan meets  
13 Reclamation's then current conservation and efficiency criteria for evaluating water  
14 conservation plans established under Federal law.

15 (d) If the Contractor is engaged in direct ground-water recharge, such  
16 activity shall be described in the Contractor's water conservation plan.

17 (e) In order to provide incentives for water conservation, the  
18 Contractor may reduce the amount of Project Water for which payment is required under  
19 Article 8(a) in accordance with the provisions of this Article 29(e).

20 (1) On or before February 15 of any Water Year, the  
21 Contractor may file with Reclamation an offer to reduce Project Water use, hereinafter  
22 referred to as Offer. The Offer shall specify the maximum quantity of Project Water to  
23 be diverted by the Contractor for each month that Project Water is available for that

Water Year under this Settlement Contract. The Contracting Officer shall provide the Contractor with a decision, in writing, to the Offer on or before March 15 of that Water Year. The dates specified in this Article 29(e)(1) can be changed if mutually agreed to, in writing, by the Contractor and Contracting Officer.

(2) If Reclamation accepts the Offer, the Contractor's payment obligation under Article 8(a)(1) shall be reduced to the maximum quantity of Project Water to be diverted by the Contractor as specified in the Offer. The Contractor shall not divert Project Water in excess of the quantities set forth in the Offer: Provided, however, if the Contractor's diversions of Project Water exceed the quantities set forth in the Offer, the Contractor shall pay to Reclamation the applicable Rates and Charges plus an amount equal to the applicable Rates and Charges, unadjusted for ability to pay, for each acre-foot of Project Water diverted in excess of the quantities set forth in the Offer.

(3) If Reclamation decides not to accept the Offer, the Contractor's payment obligation will remain as specified in Article 8(a)(1).

(4) The provisions of this Article 29(e) shall be in addition to and shall not affect the provisions of Article 3(e) pertaining to the sale, transfer, exchange or other disposal of the Contract Total designated in Exhibit A.

#### OPINIONS AND DETERMINATIONS

30. (a) Where the terms of this Settlement Contract provide for actions to be based upon the opinion or determination of either party to this Settlement Contract, said terms shall not be construed as permitting such action to be predicated upon arbitrary, capricious, or unreasonable opinions or determinations. Both parties, notwithstanding any other provisions of this Settlement Contract, expressly reserve the

1 right to seek relief from and appropriate adjustment for any such arbitrary, capricious, or  
 2 unreasonable opinion or determination. Each opinion or determination by either party  
 3 shall be provided in a timely manner. Nothing in subdivision (a) of Article 30 of this  
 4 Settlement Contract is intended to or shall affect or alter the standard of judicial review  
 5 applicable under Federal law to any opinion or determination implementing a specific  
 6 provision of Federal law embodied in statute or regulation.

7 (b) The Contracting Officer shall have the right to make  
 8 determinations necessary to administer this Settlement Contract that are consistent with  
 9 the provisions of this Settlement Contract, the laws of the United States and of the State  
 10 of California, and the rules and regulations promulgated by the Secretary of the Interior.  
 11 Such determinations shall be made in consultation with the Contractor to the extent  
 12 reasonably practicable.

13 ~~(c) In the event that the United States, as a result of litigation or~~  
 14 ~~agreement, or failure to require an agreement, give substantially more favorable treatment~~  
 15 ~~to any other diverter from the Sacramento River under similar circumstances than that~~  
 16 ~~accorded under this contract to the Contractor, the United States agrees to renegotiate this~~  
 17 ~~contract to provide comparable treatment to the Contractor hereunder.~~

#### 18 CONTRACTOR TO PAY CERTAIN MISCELLANEOUS COSTS

19 31. (a) In addition to all other payments to be made by the Contractor  
 20 pursuant to this Settlement Contract, the Contractor shall pay to the United States, within  
 21 60 days after receipt of a bill and detailed statement submitted by the Contracting Officer  
 22 to the Contractor for such specific items of direct cost incurred by the United States for  
 23 work requested by the Contractor associated with this Settlement Contract plus indirect

1 costs in accordance with applicable Bureau of Reclamation policies and procedures. All  
2 such amounts referred to in this Article shall not exceed the amount agreed to in writing  
3 in advance by the Contractor. This Article shall not apply to costs for routine contract  
4 administration.

5 (b) All advances for miscellaneous costs incurred for work requested  
6 by the Contractor pursuant to Article 31 of this Settlement Contract shall be adjusted to  
7 reflect the actual costs when the work has been completed. If the advances exceed the  
8 actual costs incurred, the difference will be refunded to the Contractor. If the actual costs  
9 exceed the Contractor's advances, the Contractor will be billed for the additional costs  
10 pursuant to Article 31 of this Settlement Contract.

11 WAIVER OF DEFAULT

12 32. The waiver by either party to this Settlement Contract as to any default  
13 shall not be construed as a waiver of any other default or as authority of the other party to  
14 continue such default or to make, do, or perform, or not to make, do, or perform, as the  
15 case may be, any act or thing which would constitute a default.

1           IN WITNESS WHEREOF, the parties hereto have executed this Settlement  
2 Contract as of the day and year first hereinabove written.
